

## ➤ Elma 9200BT True RMS AC/DC clamp multimeter with Bluetooth

Free APP and build in, bright LED torch light

Elma 9200BT is a rugged true RMS AC/DC clampmeter equipped with Bluetooth function. The instrument measures current, voltage, frequency, capacitance, temperature, duty-cycle, resistance and continuity. Furthermore, the instrument is equipped with a custom range for external current clamp, measuring as much as 3000A using flexible clamp ElmaFlex 430.

Using the Bluetooth function and the free APP, Elma Link, available for both iOS and Android, Elma9200BT becomes a safe and clever documenting tool. Watch your display on your Android/iOS device and perform measurements in safe distance from dangerous voltage. Watch and record all values and trends directly on your phone. Save and attach comments to measurements and share e.g. by mail.

Elma 9200BT is equipped with large backlit display and bright LED torch light, voltage detector, data hold, rel/max/min and auto power off. The clamp multimeter fulfills EN61010-1 CAT III 600 V and is provided in a bag incl. test leads, batteries, manual and temperature probe.

Attribute	Value
Current AC/DC	0...60...400A
Accuracy	±2,0% + 8D
Voltage AC/DC	0...6...60...600V
Resistance	0...600...6k...60k...600k...6M...60MΩ
Frequency	10Hz...10MHz
Temperature	-20...760°C
Duty Cycle	20...80%
Display	3 6/7 ciffer, 6000 counts
Clamp Diameter	30mm
Batteries	2 stk. 1,5V LR03 AAA (Incl.)
Dimensions	215x80x39mm
Weight	285g
